Important things to do, if I can no longer care or help

(e.g. think of the things that someone else would need to know, need to do, who they would contact to help and any useful contact details)

EMERGENCY PLAN

In an unexpected emergency, what would your plan look like to meet your daily caring responsibilities?

What are the practical arrangements for short-term, unplanned circumstances that would need to be put in place?

Who to contact: ..........................................................................................................................................................................................................

How to contact them: ..................................................................................................................................................................................................

What to do and how: ..................................................................................................................................................................................................

THE FUTURE

Future planning is about longer-term plans for the person you care for, when you are no longer able to care. Future plans are more in-depth than emergency plans. The carer, cared-for person and all other relevant family members or friends should be involved in this plan. The wishes and preferences of the carer and the cared-for person should be taken into account.

Some things to consider include, but are not limited to, current care and future care, living arrangements, practical, legal and financial provision including Power of Attorney, guardianship, wills and trusts (if relevant).
